

Year 4 Learning Log

15th June 2020

Thank you for all the work you've shared on Seesaw over the last week. I can see that you've been very busy with your learning. It's been particularly good to see how well you've been getting involved in the science project. This week is the final part of our current Talk for Writing unit and we are continuing with the usual White Rose maths tasks. We are also trying a set of lessons for this week, produced by Cardiff City FC called Bluebirds from Home. This builds up towards a Sports Day on Friday, that we hope you enjoy. There are lots of activities in the pack, so I have made some suggestions, but you may wish to try any that you think look good. These will particularly appeal to any football fans but if this isn't you, there are plenty of other things to be working on. All five daily booklets are attached to this Learning Log. I've put a picture of Cardiff players alongside these activities and highlighted them in blue.

This Week's Learning Log

- 5 English activities (4 from Talk for Writing and 1 from the Bluebirds from Home booklets)
- 5 Maths activities (4 from White Rose maths and 1 from the Bluebirds from Home booklets)
- 1 Spelling and handwriting activity
 - 1 Welsh activity
 - 1 RE activity
- Science project which starts this week and then runs for the rest of the term
- Bluebirds from Home Sports Day activities (Friday booklet)

1. **English** - This is the final week of the 'Mission Possible' Talk for Writing booklet. As usual, here are my suggestions for how to structure the work:

Session 1 - Complete the secret code on page 27 and design the gadget on page 28.

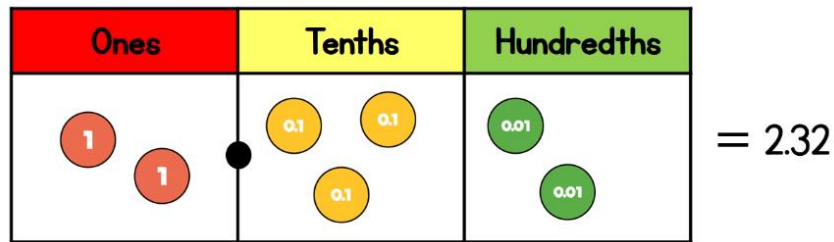

Session 2 - Plan the story on pages 29-33.

Session 3 - Write the story on page 33.

Session 4 - Complete the evaluation on pages 37-38.

Session 5 - You might like to have a go at the sports personality activity from the Bluebirds at Home booklet. If you do this, you need to read the profiles of the two players and find the information to answer the questions. This is on page 4 of the Tuesday PDF.

2. **Maths** - Here are the next set of White Rose maths task sheets. Don't forget you can try something easier or harder by moving to the Year 3 or Year 5 activities. These are the sessions for this week.

<https://whiterosemaths.com/homelearning/year-4/>

Session 1 - Write decimals

Session 2 - Compare decimals

Session 3 - Order decimals

Session 4 - Round decimals

Session 5 - You might like to complete the player cards activity on page 4 of the Wednesday Bluebirds from Home booklet. This looks at addition and subtraction to 100.

Remember it would be great if you could post some examples of your White Rose maths work on Seesaw but you don't need to share every single page.

3. **Spelling and Handwriting** - Here are the spelling words for this week. You can choose whether you want to work on just the 'must', the 'must' and the 'should' or all three lists. The handwriting task is to write sentences using these words in them in accurately sized and joined handwriting.

MUST active	SHOULD creative	COULD possessive
massive	attractive	additive
positive	impressive	persuasive
negative	competitive	repulsive
expensive	relative	inquisitive

4. Welsh – This week's Welsh phrase and activities are posted here as a separate document
5. RE –

Sin and Examination of Conscience

People get lost when they deliberately do something wrong, hurting others, themselves or the world they live in. That is what is called 'sin'. It is anything deliberately chosen – to think, say or do. It is also anything you choose to do or not to do that spoils or breaks the friendship with God and with other people. Sin is anything which breaks bridges of love.

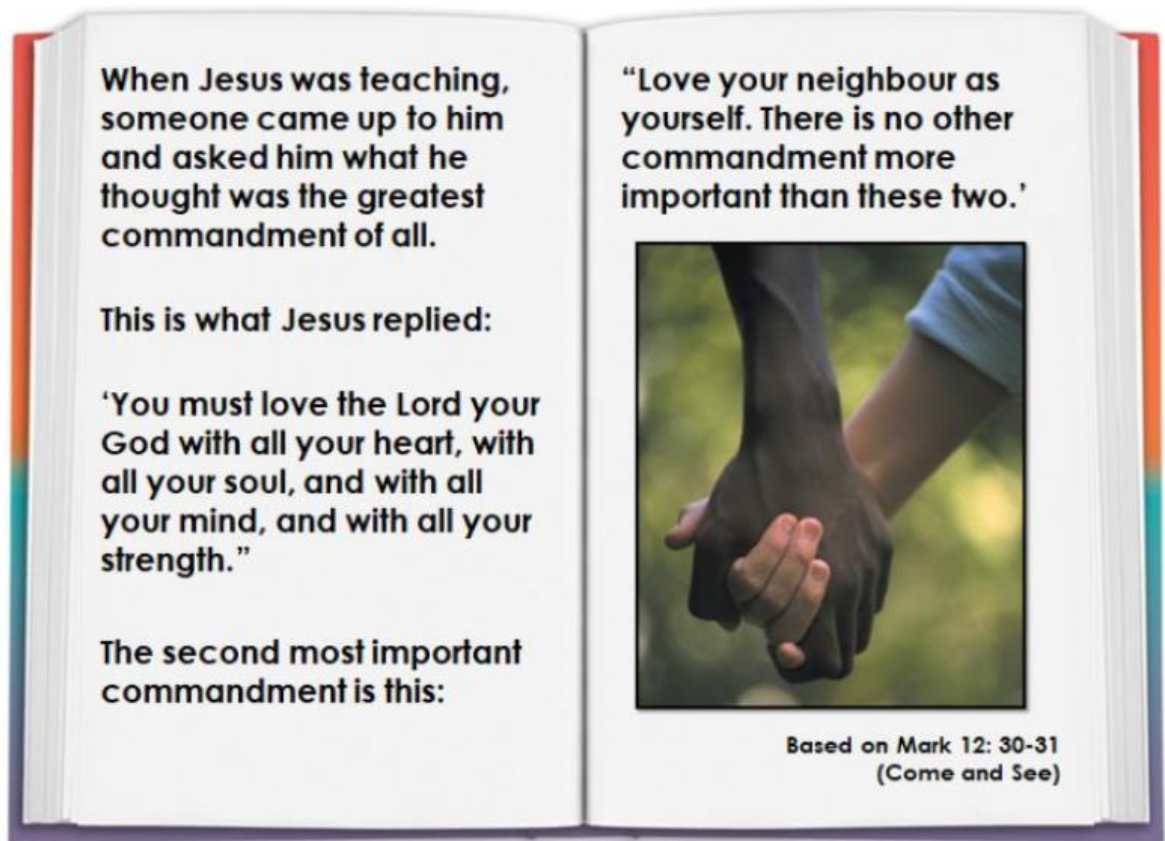

Questions

- Q What does "examine your conscience" mean?
- Q When is it good to think about it? What will it lead us to do?
- Q Which is easier – to love God or to love your neighbour? Is there a difference?
- Q Why do you think love of God and love of our neighbour is so important?
- Q What would be another commandment?
- Q How would you define 'sin'?

Your Task:

Describe the ways in which God's law of love can be broken – thinking, saying or doing anything that spoils or breaks friendship with God or with other people. It is also choosing not to do something which again results in breaking friendship with God and other people. Write a short story/account to illustrate one of these occasions and how a bridge might be rebuilt.

The Greatest Commandment

6. **Science** -We are continuing with our Science project, which will run for the rest of the term. The information about this is attached to last week's Learning Log and was also shared on Seesaw.

7. PE - The Friday booklet from the Bluebirds from Home festival gives a whole series of sports activities to recreate a Sports Day from home. Try out some of these and Tweet us if you can!

It's been great to see lots of you in the group calls we've done this week. For those of you that have missed these, I have set up another group on Tuesday 16th at 9:00. You should receive an invitation through your Hwb email if you haven't yet had a call.

Have a good week.
