

Have you mastered identifying symmetry in shapes?

- a) Copy these shapes and mark on any lines of symmetry. Check with a mirror!

- b) Copy and complete each shape with its reflection in the dotted mirror line.

Champions' Challenge

1. Draw 3 triangles, one with no lines of symmetry, one with one line of symmetry and one with three lines of symmetry.
2. Name each triangle.
3. Is it possible to draw a triangle with two lines of symmetry?
