

Have you mastered doubling and halving 3-digit numbers?

a. Use partitioning to double these numbers:

142

374

469

b. Use partitioning to halve these numbers:

648

476

508

Champions' Challenge

1. Which is greater, double £235 or half of £940?
How do you know?
2. Invent a problem where doubling one number and halving another gives the same answer.
3. Tanya doubles a number twice to get 940.
What was her number?
