

Year1

Learning Log week beginning 22.06.20.

Literacy:

Reading:

Please continue to read and complete comprehension activities on Bug Club. I have added more books for those that were nearing the end of the allotted number of books.

Spelling - 'aw' words:

Write a sentence in your learning log for each 'aw' word you can think of. Here is a list you could use to get you started:

saw	yawn	raw
claw	draw	jaw
straw	crawl	awful

Writing:

All pages needed for the activities below are saved to seesaw and school website as usual:

- What would you keep in your treasure chest? Write sentences to say what the item would be and why you would keep it as a treasure.
- Write out the diary entry making sure all capital letters and full stops are in the correct place.
- Why not have a go at making yourself a pirate hat by following the instructions.

Maths:

The link to the daily lesson videos is here:

<https://whiterosemaths.com/homelearning/year-1/>

All lessons are saved to seesaw and school website as usual.

RE:

- Read the story of Jesus and Zacchaeus one more time.
- Pretend that you are Zacchaeus and write a letter to Jesus saying you are sorry for all of the wrong choices you have made. Use the words at the bottom to help structure your writing.

Context:

Science enquiry: I've watched some amazing science enquiry videos on flipgrid and seesaw!! If you haven't already done your science enquiry, go onto flipgrid and have a look at not only year 1 videos, but videos from across the whole school. Maybe you'll get inspired.

If you have completed an enquiry think about how what you found out could be applied to real life. For example, lots of children have left an egg in vinegar and the shell seems to disappear and the egg becomes bouncy, but why is this important to know? How could this be used in a real-life situation? What do real scientists use this type of reaction for in the real world?
