

Year1

Learning Log week beginning 06.04.20.

Notes to parents:

Over the period of the traditional Easter holidays, learning logs will continue as usual and additional seesaw activities will be posted, however, we understand the importance of switching off and relaxing too so please understand that the activities are there to support with learning and structure at home and are not mandatory.

Literacy:

'ow' words:

Follow the instructions on the sheet and then write a sentence in your learning log for each of the 'ow' words. Here is a list you could use to get you started:

cow	owl	powder
now	howl	brown
clown	crowd	town

Verbs:

A verb is something you can do. If you can put the word 'to' before the word then it is probably a verb.

Complete the sheet.

Write each verb into a sentence within your learning log.

Describe the verb, e.g. The boy played happily or The girl jumped excitedly.

Maths:

Don't forget to go to White Rose mathematics online for daily teaching videos and follow up activities. They won't necessarily match the focus I'm suggesting each week but will be excellent resource for new learning and revision of topics we've already covered.

I have put a progression check PDF for this week's mathematics.

Please DO NOT do this as a test. It is a range of questions based on what we have covered in school and since being out of school and I ask that it is worked through it at the child's pace. It does not have to be done all on one go and can be done over as many days as required. I will not be collecting in scores.

RE:

<https://www.youtube.com/watch?v=HL8R158Ujp4>

Watch the video above.

Tell me all about the events of Holy week. You can do this in whatever way you would prefer. It could be: a song, a mini-book, acted out, Lego animation, puppet pals video, PowerPoint, etc.

Please include: Palm Sunday, Maunday Thursday (The Last Supper), Good Friday and Easter Sunday.

Context:

This is one of your project grid activities. Don't worry if you've already done it, you can choose something else.

Make up questions and answers for a quiz about the jungle.

It could be about jungle animals or facts about the jungle. Record yourself asking me the questions and post them to me to see if I know the answers. Of course, you can have a family quiz night too and ask people within your family.
