

Ouch!

When Robin was playing football with his brother, he fell and hurt his foot.

He hopped about for the rest of the day, but his foot still hurt a lot.

His dad's friend took him to hospital. He had to wait for six hours until he saw the doctor. An x-ray showed he had broken his ankle.

He had to have his leg in a plaster cast for three weeks. A nurse gave him crutches so he could walk. He couldn't play football for another five weeks but he still went to watch his favourite team play.

Ouch!

Tick the right answer.

1. How did Robin hurt himself?
kicking a ball ☐ he fell over ☐ someone kicked him ☐
2. What did he hurt?
his leg ☐ his ankle ☐ his head ☐
