

Number bonds challenge!

Complete each addition.

1 $7 + 4 = \square$

4 $8 + 6 = \square$

7 $6 + 4 = \square$

2 $27 + 4 = \square$

5 $88 + 6 = \square$

8 $56 + 4 = \square$

3 $67 + 4 = \square$

6 $48 + 6 = \square$

9 $36 + 4 = \square$

10 Circle the subtractions below which use one of these two facts.

$$12 - 5 = 7$$

$$13 - 7 = 6$$

$$32 - 5 = 27$$

$$67 - 6 = 61$$

$$92 - 5 = 87$$

$$43 - 7 = 36$$

$$54 - 7 = 47$$

$$63 - 7 = 56$$

Number strips

The numbers in the bottom strip should always add up to the number on top!

Write the missing numbers.
The first one is done for you!

73	
68	5

11

45	
37	

12

62	
55	

Counting steps

13 Sam and his little sister are climbing a tower. It has 52 steps. Sam counts as he goes. On the 46th step his sister sits down. She is too tired! How many more steps till the top?
